

From site to screen, gain full visibility into every step of your construction project!

Data Plain is your all-in-one construction management platform, designed to simplify workflows, improve communication, and ensure your projects are delivered on time and within budget. With advanced features tailored for modern construction needs, Data Plain is the trusted partner for clients, consultants, and contractors.

Problem Statement

01 Limited Access to Project Information on Site

02 Delays in Document Submissions and Approvals

03 Fragmented Communication on Construction Sites

04 Inaccurate Forecasting of Project Completion

Key Features of Data Plain

- ✓ AI-Based Project Progress Tracking
- ✓ Real-Time Field Data Collection
- ✓ Minute-Level Action Monitoring
- ✓ Better, Faster & Transparent Approvals
- ✓ Secure & Encrypted Data Management
- ✓ Instant Document Retrieval
- ✓ Legally Formatted Documents by Default
- ✓ Individual Employee Performance Tracking
